Therefore, a member of the accordion games is aware that he is responsible for actions around him, for the reputation and recognition of this field in the world, and, last but not least, for the respect to all that create it, whereby each of us plays an important role. A member creates his own presentation profile that he chooses (BASIC, EXTENDED or ULTIMATE) in the

international encyclopaedia of accordionists and marks his role. If a member competes in accordion games, he also has the right to receive prizes for high results from both prize funds of the accordion games.

## **WHY BECOME A MEMBER OF THE ACCORDION GAMES + AMO?**

This membership allows active work and a mission in the organisation of the accordion games to all who want it. In this case, the organiser informs them of all the activities that are being carried out. A member also participates in the formulation of opinions and in discussions on strategic issues and the development of accordion games. A member represents accordion games, participates in their promotion, activities, events, acquires new members and performs other important tasks. A member is invited to a personal interview where plans are presented and the role is assigned to him and the AMO contract is signed. The AMO members perform paid and voluntary work. A member arranges his presentation profile (ULTIMATE) in the international encyclopaedia of accordionists and marks his role with the "Member AMO" badge.
